

THERMALPRO

THERMALLY MODIFIED **CLADDING**

T&G Profiles

APPLICATIONS

Interior & exterior use.
Horizontal & Vertical
Installation.
Exterior siding & soffit.
Ceilings & accent walls.

- Size: 1" x 6", 1" x 8", Custom
- Standard & Custom Profiles
- Chemical-Free Finishes
 - *Clear Wood Sealer*
 - *16 Colors with UV Protectant*

Why **THERMALPRO** Wood?

Stable & Solid

Expansion and contraction reduced up to 90%. Resists warping, cupping.

Eco-Friendly

Non-toxic, chemical free thermal modification process improves durability and brings out its natural beauty.

Decay Resistant

Less water absorption means a higher resistance to rot, mold and decay.

Pre-Finished

Choose factory finishing in clear or 16 colors with UV protectant.

Rated for all climates and exterior applications. Chemical-free, with no warping, twisting, or swelling.

THERMALLY MODIFIED CLADDING

V2E

Technical Data

Tongue & Groove Profiles

Lengths:

8' - 16'

Finishing:

- Wood Sealer - Clear
- Stain & Top Coat in 16 Colors w/UV Protectant

Species:

Euro Pine, Hemlock,
S. Yellow Pine, Ash, Maple, Poplar

Customizations:

- Wood Species
- Width & Profile
- Color & Finish

Manufacturer:

Spartan Forest Products

FINISH COLORS

Sansin's unique formulas enhance and protect thermally modified wood using nature's own ingredients. This all-natural, waterborne coating penetrates deep into the wood, delivering oil and resin nanoparticles that form a tough, durable barrier that won't crack or peel. With simple maintenance top coats every 5-7 years, the wood's color can be easily restored or preserved. Visit thermalprowood.com to explore the full color selection.

Available in a Range of Rich, Natural Finishes:

Wheat, Suede, Storm Gray, Roasted Almond, Pine, Onyx, Natural, Havana, Graphite, Driftwood, Copper, Cocoa, Chesapeake, Cedar, Canyon, and Banff.

Contact us to request a sample and see the color in person.
