WHY THERMALPRO WOOD

Stable & Solid

Expansion and contraction reduced up to 90%. Resists warping, cupping.

Eco-Friendly

Non-toxic, chemical free thermal modification process improves durability and brings out its natural beauty.

Decay Resistant

Less water absorption means a higher resistance to rot, mold and decay.

Prefinishing

Can be prefinished with Sansin Dec Wood Sealer or in 15 colors with UV protectant.

Rated for all climates & exterior applications
Chemical-Free
No warping, twisting or swelling
